BD Statement on Puerto Rico Earthquake

BD continues to monitor the situation in Puerto Rico from the recent earthquake and aftershocks, and our thoughts and prayers go out to all who have been affected.

BD is conducting full assessment of our facilities and employee homes, but the initial survey has found no impact to BD facilities. To ensure employee safety, BD facilities were closed on Jan. 7, but have resumed full operations on Jan. 8. All BD sites in Puerto Rico have backup generators that can maintain full operations, even during prolonged power outages. BD does not currently expect any product disruptions at this time. We will provide an update if there is any change to product availability.
